

CARLOS GOMEZ | SR FRONTEND DEVELOPER

gomezmendozacarlos@gmail.com • Guadalajara, Mex • [LinkedIn](#) • [Github](#)

PROFESSIONAL SUMMARY

Senior Frontend Developer with 10+ years of experience building scalable web applications using React, TypeScript, and modern JavaScript frameworks. Experienced in architecting solutions from scratch, leading UI migrations, and delivering well-tested code through CI/CD pipelines. Proven track record in both technical leadership and hands-on development, complemented by valuable Back-End experience across the healthcare, aviation, telecommunications, and enterprise sectors.

TECHNICAL SKILLS

Frontend: React • Next.js • TypeScript • JavaScript (ES6+) • HTML5 • CSS3

State & UI: Redux • Zustand • Material UI • Chakra UI • Tailwind • Styled Components

Testing & Tools: Vitest • Jest • Testing Library • Cypress • Vite • Webpack • NPM • Yarn

DevOps: Docker • Azure DevOps • GitHub Actions • CI/CD • Git • Agile/Scrum

Backend & DB: Node.js • Express • GraphQL • REST • MongoDB • PostgreSQL • MySQL • Firebase

PROFESSIONAL EXPERIENCE

KMS Technology - Senior UI Developer | *Aug 2025 - Jan 2026*

- Architected **Rugged Robotics** 2D canvas layout editor from scratch using React, TypeScript, and Pixi.js for construction layout editing and robotic printing
- Established development environment with Vite, ESLint, and a comprehensive testing suite (Vitest, Testing Library)
- Implemented Zustand state management for complex editor interactions and undo/redo functionality

Tech: React, TypeScript, Zustand, Pixi.JS, Material UI, Vite, Vitest, GitHub Actions

SSTECH - Lead UI Developer | *Feb 2023 - Jan 2025*

- Led React migration of legacy ERP systems (IMS, RAMS), improving performance and maintainability across multiple platforms
- Managed UI repositories with strict code reviews, mentored 3 junior developers, and enforced coding standards
- Implemented Azure DevOps CI/CD pipelines and coordinated releases across multiple environments
- Redesigned healthcare clinic UI (Ascend Rehab) with Material UI, optimizing form workflows and responsive design

Tech: React, TypeScript, Next.js, Material UI, Styled Components, Testing Library, Azure DevOps

Globant - Senior Frontend Developer | *Oct 2020 - Sep 2022*

- Developed **United Airlines** pre-flight ordering UI with complex payment flows, achieving 85%+ test coverage with Jest
- Enhanced **Quantcast** campaign management platform with GraphQL integration for analytics dashboards and data visualization

Tech: React, Redux, SASS, Styled Components, Jest

Nextiva - Frontend Developer | *Dec 2018 - Sep 2020*

- Developed a visual IVR Call Flow manager using D3.js for real-time call routing configuration.
- Enhanced real-time messaging UI with WebRTC for audio/video calls
- Implemented E2E testing suite using Cypress and WebDriver IO for critical communication features

Tech: React, Redux, D3.js, SASS, Cypress, WebDriver IO, Docker

Indiefy - Team Lead & Software Engineer | *May 2018 - Dec 2018*

- Led 4 developers maintaining a music distribution platform, migrated Angular to React, improving performance and UX
- Maintaining RESTful APIs with Node.js and MongoDB to handle high-traffic media uploads,

Tech: React, Angular, Node.js, Express, MongoDB

Earlier Experience - Software Engineer | 2013 – 2018

- **Svitla (2017-2018):** IAM platform UI with Ember.js
- **EPAM (2015-2017):** Banking & aviation apps with React
- **Netmark (2015):** Banking web app with Angular, Java, Oracle DB
- **Itexico (2014-2015):** Verizon gamify app & Government CRM with Angular / Titanium
- **Dalton (2013-2014):** Dealership scheduling systems with jQuery, PHP, MySQL, Visual Basic, SQL Server

EDUCATION & CERTIFICATIONS

BS Computer Information Systems - UNISITE Universidad de Tecnologías Digitales (2008-2012)

Certifications: Titanium Certified Developer (2014) • Microsoft Office Specialist - Access (2010)

LANGUAGES & KEY STRENGTHS

Languages: Spanish (Native) • English (Advanced - Professional Working Proficiency)

Code Quality: ESLint configuration • Pre-commit hooks • Comprehensive testing strategies (unit, integration, e2e)

Leadership: Technical mentoring • Code reviews • CI/CD pipeline implementation • Cross-functional collaboration
